

Subject name	Basic Scientific Nomenclature in Biochemistry, Physiology and Endocrinology	
Subject code	H.KFZa.BAS9.SM.HZOXY	
Department	Animal Physiology and Endocrinology	
Faculty	Animal Sciences	
Subject supervisor/Lecturer	Profesor Krystyna Koziec	
General information	semester	summer
	ECTS credits	2
	Lectures total	15
	Laboratories	0
Objective and general description	The purpose of the course is to provide students with a better understanding of the specific nomenclature in the area of physiology, endocrinology, biochemistry and molecular biology. Students will be able to use the scientific terms during reading and writing research publications. Also, they will be well prepared for studying abroad during the exchange programmes , or during their PhD studies	
Assessment method	examination
